Queensland Legislation requires rental properties to have smoke alarms in every bedroom, outside of bedrooms, on every level and interconnected by 1st January 2022. Alarms must be 240V hardwired or non-removable 10-year lithium battery type, and connected by wire or radio frequency. We select the best alarm solution to suit your properties layout.

We select the brand of alarm that best suits the property. *FREE faulty/beeping alarm replacements for 10 Years when enrolled in our annual service and installed by us. Photographs included on all reports. Conditions apply.
